SARATOGA

WORKBOOK

AUGUST 28, 29, 30 1987

A CONCLAVE OF WINNERS!

WELCOME !

We want to welcome you, not to our Saratoga Seminar, but to YOUR Saratoga Seminar. We want you to feel that we each and every one of us traveled back to Saratoga just to answer your questions and help you solve whatever problems you may have.

We have a general idea of what we plan to do at this seminar, but please feel free at any time to ask us to repeat anything you don't completely understand the first time. We've set aside a lot of time to answer your questions, but unless the speaker is on a roll, feel free to jump in whenever you need a point cleared up.

Look around you. For many of you, this is undoubtedly the first time in your life you've ever been in a room full of winning pari-mutuel investors. Now look up front, where the PIRCO Charter Members are waiting to help share their knowledge and insight with you. This is a UNIQUE experience in all of racing. Others hold seminars to teach you how to handicap, we are here today to teach you how to WIN! We all hope you take advantage of this opportunity. After this weekend, if you're open and really listen, you'll all have the skills and, more importantly, the self confidence to become winners. Starting Monday, lives change. Yours can be one of them.

Bert Mayne has worked for half a year to make our environment perfect for learning. The knowledge is here, the people are here, all in ready. With your help, we can create a dynamic group magnetism that will carry us all to the winners circle.

WHAT AND WHEN

FRIDAY

We'll get started with introductions and opening remarks from all of our speakers. Each has a different approach to handicapping and each has something different to teach. You're sure to find someone who's technique and mind set is in harmony with yours. Seek him or her out. At the same time, we'll be listening to and learning from you, planning how to present the rest of the seminar. (You didn't think these things were planned in advance, did you? Silly person.) If you have any special requests of any of us, now is the time to speak up, while we can easily work in any requests. In the back of your manuals, starting on page 42, you'll find 5 races from Bert Mayne. (The solutions Bert found to each race start on page 55, but only a cad would peek. You DO want to learn, don't you?) Try to work them this evening and tomorrow morning. Bert will go over them on:

SATURDAY

Not only will we all go over Bert's races, but we'll have presentations by Jim "the Hat" Bradshaw, Bob Cochran, Dick Schmidt, Tom Brohamer, Michael Pizzolla (if we can get him to come out of his shell and speak in public. He's SO shy.) And most of the rest of the PIRCO gang. A special treat will be Bob Purdy giving us the lowdown on his fantastic new program Synergism. PIRCO never stands still, we either grow and progress or we get boring and die. Synergism is the high water mark of our progress so far. We know you'll be impressed. Anyone who doesn't get a chance to say everything they want to share on Saturday will speak on:

SUNDAY

The grand finale. This is where we'll wind up the whole extravaganza and make sure ALL your questions are answered. We'll go from 9:30 until you're finished. Afterwards, we hope that many of you will be able to join us at the now traditional banquet in honor of living through this entire thing. Most of us will be around the hotel this evening and tomorrow morning, and of course we're going to Saratoga to do a bit of sightseeing. Might even be tempted to put a bit on the odd horse. (Last year, we bet on a very odd horse. Thought it was in a steeplechase). So remember our motto: if you leave with unanswered questions, it's YOUR FAULT.

We'll review these races with a minimum of text and a lot of audio discussion with client feedback.

RACE #1.

Most of the problems incurred by the client in this race were caused by his indiscriminate use of adjustments and his refusal to accept his own evaluation of the % EARLY required to WIN at this distance at Del Mar. Catch & Fools & Swapp were closest. Catch & Irish did NOT have sufficient late energy to compete.

RACE # 2

Here is another case where % Early told the story to the tune of a \$24.40 mutuel. In both these races the client was too absorbed with his "W" readout to realize that 54.50 and 54.53 were TOO high an early percentage for win. Doris was too LOW!

RACE # 3

Vital Score is an obvious key horse from every standpoint. The client entered at least THREE horses who had no business being there. He penalized SOONER .30(-) for the race he used for a pace line, the Mile at GG on the turf. The HORSE IS NOT A GG Horse. It is a SA, HOLL horse. NO PENALTY. He also got very adventurous in choosing pace lines for BROAD, STEADY and PRODIGAL.

RACE # 4

The winner was left out because its only WIN came from a Maiden Race. Read pg. 112 of your YELLOW manual. This horse broke its maiden at 104% of today's purse. It certainly qualifies. The mile 3/8th Marathon at Bel on the turf was just a toughener against better horses. The Maiden win would have properly put this horse on top.

TOPIC OF DISCUSSION

ANALYZING EARLY ENERGY % PARS.

1

1st Del Mar

6 FURLONGS. (1.07%) CLAIMING. Purse \$11,000. Fillies and mares, 3-year-olds and upward. Weights, 3-year-olds, 116 lbs.; older, 121 lbs. Non-winners of two races since June 1, allowed 3 lbs.; of a race since then, 5 lbs. Claiming price \$12,500; if for \$10,500, allowed 2 lbs. (Races when entered for \$10,000 or less not considered.)

THE TANDEM MATCH-UP

by Jim "The Hat" Bradshaw

The advanced Tandem procedure, used in conjunction with pace line match-ups, has proven to be a great help to many clients who are trying to advance their handicapping skills.

Last July, a client from New York came down to the Hills of Oklahoma to learn the pace line match-up. He has been using the method for about two years now, but was having problems locating the true contenders in a race, together with pace line selection and adjustments. This is nothing new, because most of you have the same problems. Many of the folks that I talk with will admit they are not winning, but they are reluctant to admit they are unable to locate the true contenders, pick proper pace lines or know when to adjust a race.

They can't seem to understand that to have the winner in the top five 85% of the time is no big deal. What's hurting them is that they are invariably entering horses that have no chance of winning the race. They enter, and then adjust, SLOW horses. Most of them are shocked when I tell them that 90% of the time I make NO adjustments to a race, and can almost never find five real contenders. My question to you is: why enter five horses into your computer when there aren't five horses in the race capable of winning it?

Matching pace lines has helped many individuals to attain the seventy percent plateau they have been reaching for so long, but the more traditional handicappers frown on it as "voodoo" handicapping. Well, maybe so. Everyone knows that Oklahoma is a hotbed of voodoo. All I've got to say is it works for me, and I can teach it to most folks and have it work for them.

My New York friend brought down some Forms with him, and we worked through several days. The first card we tackled was from Thursday, June 11 at Belmont. After we worked the races, I had him check the results and found that we had hit 8 of the 9 races we worked. Now that's nice, but what really amazed me were the mutuels. They were unbelievable. Now, I know us ol' country boys ain't sophisticated enough to understand the subtle nuances of New York Big Time Racin', but we shore got the sense to bet \$60.00 winners when we see 'em.

Lets take a look at the Second Race from June 11 at Belmont:

First, locate the horse that ran the best against the fastest pace, preferably at today's distance, or close to it. My eye lights right on FLIP FOR J.K.'s last race. Next, I notice that four horses are coming from this BETTER BE SINGLE Tandem, and if I can find a horse that can beat FLIP, I can eliminate the entire tandem.

J.R.'S HOPE is a "slow" horse, so he can leave. YOUNG MONARCH is even slower, so he is gone. When you compare BAITED POND's and POSTER COLOR'S one mile race to CLASS HERO's March 30 race at AQU, they are easily eliminated. All you can say about MOON CRITTER, ATTUNE, and REFORMULATE is slow, slow, slow. We can eliminate all three of them without even breathing hard. So now I find that I have my four Tandem horses as my contenders.

I'm going to use the Tandem race as my pace line for all four, even though two of the horses have run a race since then. The advanced Tandem Concept says to use the Tandem pace line, but to give all the Tandem horses the same final beaten lengths as the best finisher in the Tandem.

In this example, CLASS HERO, ACCOUNT RECEIVABLE and SPICY BONES are given the same 5.5 final beaten lengths as FLIP FOR J.K. I've run all four horses through the new Match-Up program. You can see that ACCOUNT RECEIVABLE and SPICY BONES are the top two horses. However, after you have entered your contenders into your computer, you always want to look back at the horses to determine how today's race will be run. Don't just bet the top two horses.

In looking back at the race, I see that we have two horses, MOON CRITTER and BAITED POND, that will fight for the lead and figure to run about a 112 and change 6 furlong time, lots slower than the Tandem race. ACCOUNT RECEIVABLE will not be able to get the lead, and his last three races indicate that he does not close well. CLASS HERO received his sustained rating because of the artificial Tandem adjustment, and actually lost ground all the way around during the race. SPICY BONES had a bad start, but then lost only two lengths for the rest of the race, and showed moves against the pace of the race. This evaluation makes FLIP FOR J.K. and SPICY BONES the top two horses.

Figuring this race right could just about make your day. Not only do you cash a \$63.20 win ticket, the exacta of your two top horses paid \$439.60 and, since the first race was so simple even Yankees could get it, the double can be cashed to the tune of \$274.40.

I guess I left out the part about the voodoo doll, but I think you all can master the rest of this procedure. Just remember, use ALL your tools; both your computer AND your head. Tain't hard a-tal.

2nd Belmont

1 1/4 MILES. (145%) CLAIMING. Purse \$14,000. 4 years old and upward. Weight: 122 lbs. Non-winners of two races at a mile or over since May 15 allowed 3 lbs.; of such a race since then, 5 lbs. Claiming price \$14,000; for each \$1,000 to \$12,000 allowed 2 lbs. (Races when entered to be claimed for \$10,000 or less not considered).

Coupled—Moon Critter and Attune.

 1-(K)-MOON CRITTER (a-entry) 4.40

\$2 EXACTA 11-4 PAID \$439.60. \$2 QUINELLA 4-11 PAID \$145.00.

Re. g. by Sawbones—Cinnamon Cake, by Peace Corps. Trainer Belancourt Eduardo. Brod by Hobeau Farm Inc (Fla).

SPICEY BONES came out while rallying after entering the stretch, caught the leaders inside the final furlong and drew off. FLIP FOR J. K. loomed boldly along the inside entering the stretch but was no match for the winner. MOON CRITTER, prominent from the outset, duelled for the lead into the stretch while racing well out in the track and weakened. ACCOUNT RECEIVABLE lacked the needed rally while racing wide. BAITED POND made a run between horses midway of the turn but weakened under pressure. CLASS HERO tired from his early efforts. REFORMULATE tired. POSTER COLOR showed brief speed. R. J.'S HOPE moved up along the inside nearing the end of the backstretch but was finished after going six furlongs. ATTUNE was pulled up after losing his action.

Owners— 1, Lee-King A; 2, Gizzo Colleen; 3, Barrera O S; 4, Dutrow R E; 5, Rand Adele L; 6, Santangelo Barbara; 7, Foresta Joanne; 8, George W; 9, Dombrowski J; 10, Win Four Farm; 11, Gagliano S.

Scratched—Full of Spice (3Jun87 4Bel12); London Market (17May87 9Bel4); Proud World (22May87 8Rkm7).

\$2 Daily Double 3-11 Paid \$274.40. Daily Double Pool \$153,136. OTB Daily Double Pool \$387,641.

**E-S-P
MATCHUP PROJECTION
TOM BROHAMER**

While Tom Brohamer could not attend this conference in person, he has made a significant contribution to the match-up concept through his use of E-S-P.

No, not extra sensory perception, although many have accused Tom of having that kind of ESP when reviewing his success rate.

Tom's E-S-P is utilized Before or after, as befits your preference, the application of the matchup procedures adapted by Jim "The Hat" Bradshaw.

In a manner similar to that of assigning the X's O's and ~~+~~'s, make a notation on EACH ENTRANTS preferred running style, with particular emphasis on its behavior pattern when racing WELL. (Close up at the finish or any two calls)

E

If it likes to rush to the front, to be on or JUST OFF the lead, give it an E for Early Pace.

S

If it habitually starts slowly, hangs back and makes a closing rush, mark it S, for Sustained Pace.

P

If it demonstrates a 'mid pack' break and maintains an even pace within striking distance of the pace setters, Give it a P. This horse is called a "presser." It presses the Pace.

In making your determinations don't just look at position calls, Note also the fractional TIMES the horse set or ran against.

EXERCISE: Do an E-S-P workup on this second race at Hollywood Park:

1. Run Through - Paragon
Run Pace of Race - No Beaten lengths
To Determine 90 Early Pace of Race
only
2. Now Run Pace of Race with winners B.b.

While the Hollywood Park WIN PROFILE was mildly sustained on this date, it could have been extremely early without changing the outcome of this race.

The plethora of E contenders dictated a win by either a presser or, even more likely, a closer.

OH DAD had both characteristics.

Had an opposite configuration been present, an abundance of closers and only one or two E horses, Early Pace would prevail.

In these kinds of situations the E-S-P projection usually supercedes the Brohamer Model forecast.

Since that is a conclusion drawn by the Model's developer, E-S-P delineation represents a powerful tool.

SUMMARY: DO AN E-S-P projection on EVERY horse in the RACE. Even a non win contender may well affect the race's configuration which, in turn will determine the outcome.

R. g. by Tentam—Madam Irma, by Arts and Letters. Trainer Jordan James. Bred by Greenstein R & B (Ind).

OH DAD, never far back, rallied to the front from the inside approaching the sixteenth marker and kept to his task in the final sixteenth to prove best. MUESTRO SOL lacked early speed, came into the stretch six wide, finished strongly but was unable to get up. CAMILLA'S BOY, in close contention throughout, lacked the needed late response. CUTTING LINE lacked early foot, entered the stretch four wide, menaced through the drive but also lacked the needed late response. TOUGH ENJOLEUR, bumped in the initial strides, was seven wide into the stretch. DETECTOR veered inward in the opening strides and was checked. LITTLE MINCH outspurred rivals for the early lead after being bumped in the initial strides, set the pace until yielding command approaching the sixteenth marker and weakened FALL FLYER, wide while being outrun early, came into the stretch five wide and was never prominent. ROSES ARE REB, outrun early and four wide into the far turn, entered the stretch five wide and lacked a sufficient response when called upon. DANCHAI, in close contention for a half, gave way. KING OF CALIFORNIA prompted the early pace, gave way abruptly to drop back quickly approaching the stretch and was pulled up in the upper stretch.

REVISED PHASE III CLASS RATING

BY DICK SCHMIDT

The new Phase III Class Rating is a wonderful illustration of PIRCO in action; a showcase of group dynamics. It all started, as almost everything in the Methodology starts, in the original Phase III manual. Starting on page 27, Dr. Sartin talks about trying to find a meaningful class rating based on a horse's earnings and performance. What is usually referred to as the "money box" in the Racing Form.

He began by looking at three popular ratings: average purse value, earnings per start and percentage in the money. After looking at some 3500 races with a mainframe computer, here is what he found:

AVERAGE PURSE VALUE

WIN: CHOICE #1---12% #2---26% #3---31% TOP 3---69%

EARNING PER START*

CHOICE #1---23% #2---21% #3---20% TOP 3---64%

% OF FINISHES IN THE MONEY*

CHOICE #1---28% #2---20% #3---16% TOP 3---64%

* Current year with six or more starts. Six or less use two years.

So, while, ironically, APV produces the most winners in its top 3, it is the least effective barometer of class of the three in the prime area of first choice. This was not so in the recent past. Inflation in purse values and a wider range of purses for comparable events at different tracks have influenced its value as a predictor of winners.

Next, Dr. Sartin and his original research group began looking for a way to use this information. They came up with a way of compounding the ratings as follows. Again, this is taken directly from the Phase III manual.

Step 3: Your computer divides the number of In the
In the \$ Money finishes by the number of STARTS.

Step 4: IF APV is above today's purse you will get
A.P.V. the percentage ABOVE as the APV adjustment.

?

NO PENALTY is made when a horse is BELOW
today's purse. Let's use the APV example
cited earlier, the horse with the APV of
\$6,330. If today's purse was \$5,000, your
computer divides 6,330 by 5,000. The result
1.26. The one is dropped. This horse's APV
adjustment is .26.

Step 5: Now the computer automatically multiplies E.P.S. by

E.P.S.

?

1.5, and moves THE DECIMAL to precede the
first number. This horse's EPS adjustment is
.15. When a horse has less than a 1,000 EPS
a zero is placed before the first digit.
Hence an EPS of \$900 (after the application
of the multiplier) would receive a .09 adjust-
ment.

Originally, the resulting number was used as an adjustment to the feet-per-second ratings of the horses. Over a period of time, especially at the urging of Tom Brohamer and Bob Purdy, this procedure gradually fell into disfavor. Today, Dr. Sartin has reached the point where he doesn't believe in making any kind of class adjustments, a feeling that is reflected in Ultra Scan, which has no provision for a pure class adjustment.

However, some clients continued to use the old class rating, though more as a contender selection rating than an adjustment. Jim Bradshaw, when he wrote Contender Scan, used both the class rating and APV. While most of us focused on APV as a contender selection rating, Sue Sedgwick in particular used the class rating to good effect. Her article in our manual The 55% Solution, Finding the Place Horse prompted me to take a new look at the rating.

After playing with the rating for a bit, I re-read the formula and didn't like one part of it. The part I have underlined in my Phase III manual. "NO PENALTY is made when a horse is BELOW today's purse." Considering how valuable we have found APV to be, this just didn't make sense to me. I felt that giving a horse with a 39% APV the same score as a horse with a 99% APV was not logical.

I did what I usually do when I find something I'm not sure of. I change it, play with it, do a lot of research. And then when I get tired of doing that, I call the Doc. He agreed with me that this was not an optimum solution. He told me that this was one of the first research projects he had done, and that since then he had learned a lot more about the value of APV as a contender separator.

So how would he rewrite the formula if he had a chance to do it all again? After sucking on his pipe and staring into space for a bit, Doc allowed as how he'd be more likely to use whatever APV the horse earned, even if it was below 100%. But not all of it, that would make the rating too "top heavy" with APV. Use about half of the APV, he suggested. Again, I did what I always do. I experimented with the formula, wrote and rewrote the program trying different percentages over a 150 race sample. Do I need to tell you what percentage worked best? 50%. The number that Doc had plucked from the air. Why do I even try?

So there you have it. A Sartin to Sedgwick to Schmidt to Sartin to Schmidt to You triple play and a new Phase III Class Rating has been born. So what do you do with it? I use it to help select contenders. I've tested it in Southern California and found that it has the winner in the top 5 93% of the time. Bert Mayne tested it in New York, both on the main circuit and at Finger Lakes and it has performed at approximately the same level. (At Finger Lakes it is a bit lower, around 89-90% in the top 5, but the average mutuels are much higher).

Glenn Smock has used it very successfully not only in Southern California, but in Mexico at Tijuana and at Canterbury Downs. Again, the winner was in the top 5 92-93% of the time. I've given the formula to several people around the country and so far the reports have been consistent. Winner in the top 5 90+% of the time. So far, the only negative report I've gotten has been from the San Francisco area, where one user reported only getting 80% in a short sample.

What I suggest you do is give it a try. Do not abandon APV or whatever aid to selecting contenders you are currently using. The program gives you both the Class Rating and APV. Whatever you do, don't stop thinking. There are always exceptions to every mechanical rating system, and if you use it automatically it will cost you money.

There are times when no "money box" rating is going to be much good. When you look at lightly raced horses, both APV and the Class Rating are going to be distorted. With two year olds and lightly raced three year olds, you'll have to find another way to separate contenders. If a horse just ran second in the Breeder's Cup, its

numbers are going to be distorted. Don't give up thinking just because you've been given another tool.

The mechanics of using the program are the same as Dr. Sartin recommends for APV. If a horse doesn't have a win, then give it one by moving over a place or show to the win column. (ie. a horse with a record of 10 starts, 0 wins, 2 places and 2 shows would be entered as 10 - 1 - 1 - 2 in the computer.) If the horse doesn't have 6 starts in the current year, use two years. I tend to modify this a bit, using 4 starts in the current year for higher class horses and always using the current year after about May, but the above is what Dr. Sartin recommends. Again, you'll need to discover what works best at your track.

What I did was to pick a representative sample of 150 races and put them through using several different cut offs. In all, I ran about 2,000 races through the class program. Was it a lot of work? You bet. Was it a lot of fun? Nope. Do I recommend you do the same thing? Only if you want to develop this new Class Rating into a tool that can improve your handicapping.

* * * * *

Now, let's look at how to change Contender Scan (easy) or Phase III (more difficult) to give you the new Phase III Class Rating. I'll show you how to change the Sharp computers (1250A (PC-3), 1261-2 and 1350-60) and the Apple. These are the computers I own, so they are the only ones I can give you the changes for. The other computers aren't much different, so you should be able to figure out how to make the changes.

From Contender Scan, you need only change 3 lines and add one short line. The lines that need changing are marked with an * on the "ORIGINAL" version of the printout. The changed versions are printed right beside them. On the Sharp printouts, I have also indicated three additions (marked with an x) that will make life a bit easier. If you add P2=0 etc., then hitting the ENTER key will automatically enter 0 beaten lengths. This is not necessary on the Apple. If you don't understand how to edit a line of code, just start over and type in the entire new line. Remember, as long as you have a back-up, no matter how badly you screw up, you can always start over.

To redo the Phase III APV program, you're going to need to more or less rewrite most of the program, adding several lines and changing several others. I've printed both the original APV program and the Class Rating and APV version. Note that I've dropped fourth place finishes. I don't like to use fourths, but this is personal prejudice. If you want to keep fourths in your APV calculations, be my guest.

For those of you using Ultra Scan, your APV program is imbedded in the main Ultra program, and I haven't tried to squeeze the class rating into it. What I suggest is that you type in the Phase III version of the APV and Class program. It's short enough that it

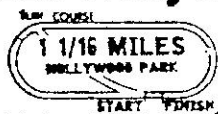

should only take you about 20 minutes. Check to see that you aren't using line numbers that already exist in your program.

A note to Sharp users. If you have used your MERGE command to load several programs into your computer at the same time, you can only edit the last program you put in. If you have put some other program on top of Contender Scan, you can not edit it. Don't try, you'll just screw things up. (Ask me how I know this) What you need to do it go to your back up tapes and load the program you want to change all by itself and then make the changes before you MERGE any other programs on top of it.

BOO-BOO'S BUCKAROO	15.00	6.00	3.40
TABLE GLOW	4.20	3.00	
A-PONDERABLE		2.60	

Winner: B G B4 Kris S-Merry Graustark, Tr. Hector Palma, Mutuel Pool \$294,300, Exacta Pool \$429,744.

BOO BOO'S BUCKAROO, in close contention early after breaking alertly, responded when called upon in the drive and was up in the final yards. TABLE GLOW went to the front early, moved over to the inside rail before reaching the backstretch, continued in the lead to the final yards, then just missed. PONDERABLE, in close contention from the start, threatened through the drive but was unable to get up.

Scratched: Subito, Lucky Bear.

\$2 EXACTA 2-Boo Boo's Buckaroo & 9-Table Glow paid \$71.80

WINNER SELECTED BY — BEYROOTY

Attendance: 28,678. Mutuel handle: \$5,955,502.

A.PV.
THE INDICTMENTS
AGAINST APV MADE
BY DR. WM. GUIRIN &
JOHN MEYER WERE
BASED ON THE WIN %
OF ONLY THE #1 RANK
APV HORSE.
OUR APPLICATION OF
APV IS ENTIRELY
DIFFERENT!

THE EFFECTIVENESS OF
ANY FACTOR MUST BE
MEASURED BY THE
WAY IT IS EMPLOYED
IN A GIVEN METHOD.
GENERIC STATISTICS
ARE RELATIVELY
USELESS!

*

DO AN APV ON EVERY
HORSE IN THE RACE!

SOME NEW YORK RACES

WORK THROUGH THESE RACES BEFORE YOU LOOK AT THE RESULTS

BERT'S SOLUTIONS

Saratoga is an exciting event. It's more than a piece of real estate. The Best comes to Saratoga in August: horses, handicappers, and opportunities.

Opening day, with the knowledge that the track surface had been altered by the addition of a great deal of sand to the upper layer (to help the clay track dry faster and be less greasy after hard rains, so common in upstate New York in August), I took up the Racing Form and my computer with an eye ready to pick up on any change from Saratoga's old early nature. There was no change from its early bias of years gone by, and I've had a great summer with Phase III, U-scan, and winning horses.

Opening day, Wed. August 5, the first race was a maiden. I passed it. The second race was mine. I relied on the new class program, and my skills at seeing when not to simply follow it blindly, to decide on my five contenders. The pace lines were arrived at in the simplest manner. I saw no reason to go fishing. The last line for each of my horses seemed to be the line to use. I decided at this time to drop Jade Hunter out as a contender. It's been away a relatively long time; no dazzling works; not an impressive record before this...Out.

The Compugraph speaks for itself. Quick Call is 111. He and Locked Away were my two horses. Jade Hunter nearly gave me heart failure. Such a surprise. But Quick prevailed, as the chart writer said, and I started the Saratoga season on the right foot.

The second day of racing, Thur. August 6: the second race had only seven horses running. When I handicapped it, I thought there were eight. The scratch of Gwen John was either late or OTB failed to tell me about it when I called that morning. At any rate, I made the following decisions regarding contenders:

No Place: good name for this one. Not a turf horse. Two tries and nothing. Out

Rue: a classy horse. I can't find a good pace line to use. His last is good, but the distance is wrong. I file away a red flag mentally and continue.

Alitina: a contender. Use the last line for her.

Lady: a contender. I went back and looked at two races to see how she did at distances the computer can handle. Another possible red flag is, I decide, unnecessary because I can use the line I chose, three back, reasonably, in light of her overall past perfs. She is in form, and I use the most recent "in form" line I have at the right distance.

Ahha: naah.

Top: not all the class in the world, but use the last line and give her a shot.

I decided to go with Lady and Gwen, as the Compugraph would indicate. Finding Gwen scratched, I shifted to Alitina. She's coupled with Rue, so the red flag goes down, and I'm in business.

Friday August 7, a friend called up. He was going to the track and

wanted a "hot tip". I explained that you never bet someone else's picks. I explained to him that I had nothing to gain by giving him the results of my work: if it won, it had only done what he expected, the least it could do...if it lost, I was a jerk who couldn't pick his nose. I explained all this to him, and then gave him my suggestions for three races. One race I was beaten by a nose; one race one of my horses was the show; the other race was the fifth race. My win percentage at this time, including this day, was 75%. Not too shabby. Remember my win % for the finish of this story. For now, here's the way I worked on this race:

The class program isolated five horses. I validated its qualifying these five, and checked to see if I wanted to include any other horses. There was no need to look further.

Foxhall: I went back one for the distance to be usable.

Goa: last line.

Simply: I went back to his last turf race.

Catch: I took his last. I know he's been away a while, but he's got a good series of works, and I think he's probably fresh and in good form, so I take the last turf effort.

Silver: I took the last line.

The finish to the story ? After cashing I don't know how many dollars worth of 4:1 ticket, and picking up a rather fine exacta, my friend calls to brag about his steeplechase selections that day, and to advise me that it's a good thing my reputation doesn't ride on the day's handicapping! Moral: NEVER give away your work!!

Something I love about the Saratoga season is the concentration on the glamour track while the poor relation in the western part of the state, Finger Lakes, is churning out gold at an even more generous clip, largely unnoticed by all those who think they love racing just because they love Saratoga.

The same friend who took my decisions about Saratoga horsemeat futures so far granted, disdained even my suggestion that he take this race to the OTB on the way up to the track so he could collect on the way home. O, foolish man.

The fifth race contenders are the five high class number horses. Actually, I figured I was able to trim it down to four, because Sword Zone isn't able to cut today's match-up. When I look at his fractions, I can't help hearing a familiar Oklahoman twang say, "Shoot, Bert, he's jest a dang slow horse!"

The class program Howard and Dick came up with is great. It works at Finger Lakes as well as the top class tracks in the country. Anyway, I took the pace lines as follows:

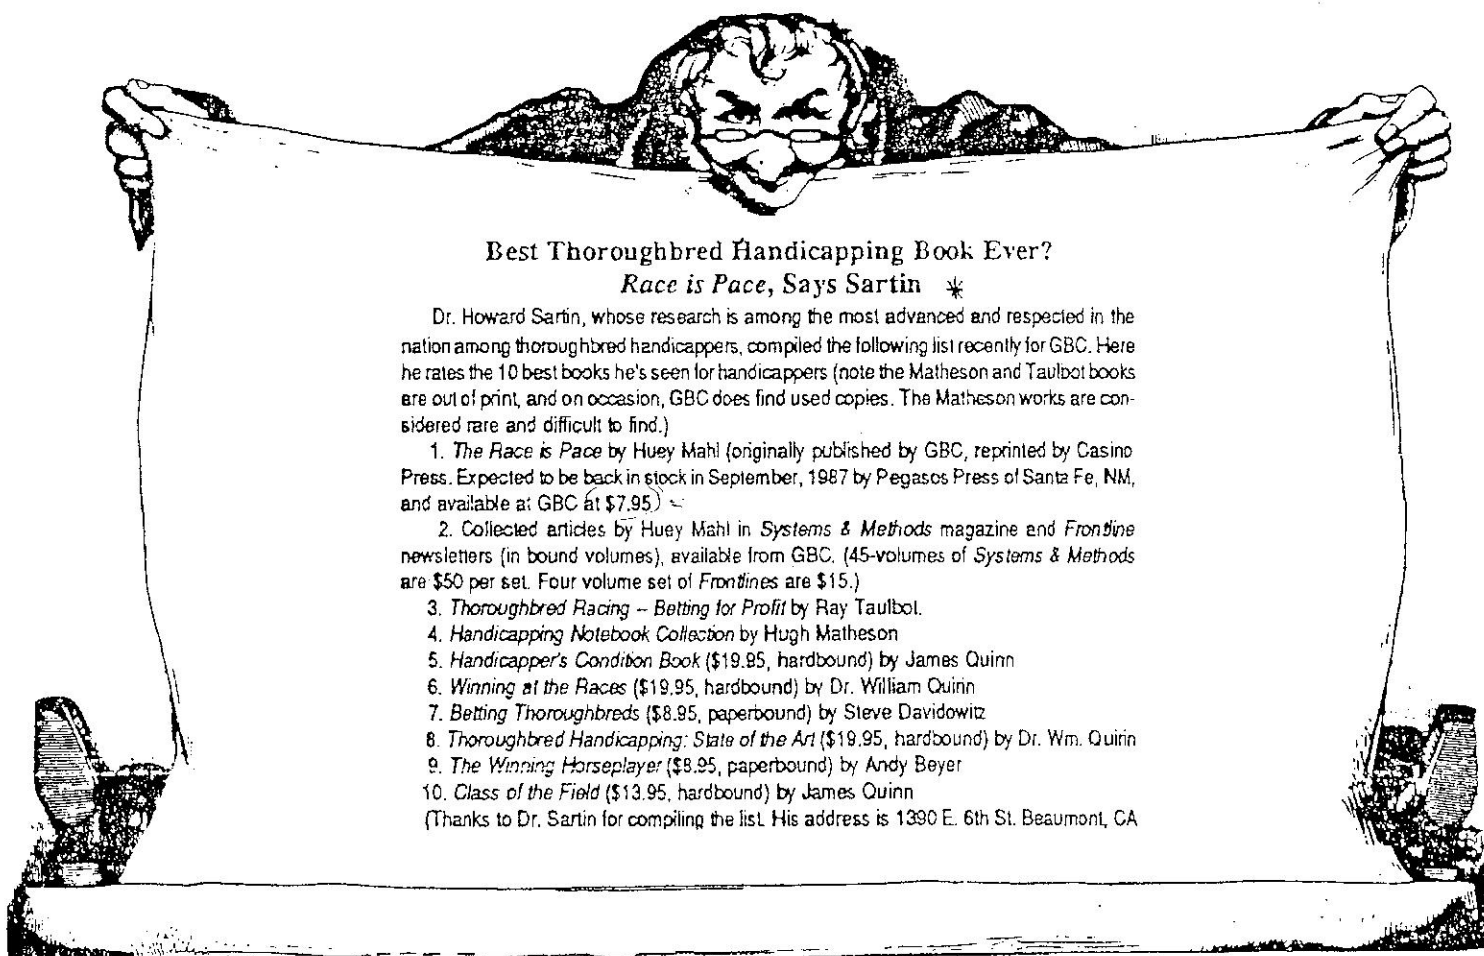

In the immortal words of my brother Bob Purdy, "If there's not a real good reason to go back, use the last line."

I try always to listen when smart people talk. It pays off.

I confess I loved Fowl Mouth because of the name. I like plays on words. So I was pleased to be able to invest money in his future when I saw he was one of the top two Early horses.

The Sartin Methodology enables any person with reasonable, normal intelligence, and sufficient drive and determination, to become a winner. Not just at Saratoga, or Santa Anita, or Belmont, or even my beloved Finger Lakes; the person who perseveres will find that he or she has become a winner in the human race. Anything short of that just isn't enough, because that's what Doc offers. I've enjoyed taking you along the first few days of Saratoga (with side tours to Finger Lakes), and wish you success in the future.

Oh, yes, the last Finger Lakes race.....
This is an example of why practicing contender selection pays off. Can you really tell me you can get excited about the chances of any more than two horses in this race (the seventh race, Sunday August 9, well after church services were over) over a sloppy track? I saw two contenders for the win. I collected pretty well considering I didn't even have to run my computer's batteries down on this one. Ain't life grand?

Best Thoroughbred Handicapping Book Ever?
***Race is Pace, Says Sartin* ***

Dr. Howard Sartin, whose research is among the most advanced and respected in the nation among thoroughbred handicappers, compiled the following list recently for GBC. Here he rates the 10 best books he's seen for handicappers (note the Matheson and Taulbot books are out of print, and on occasion, GBC does find used copies. The Matheson works are considered rare and difficult to find.)

1. *The Race is Pace* by Huey Mahl (originally published by GBC, reprinted by Casino Press. Expected to be back in stock in September, 1987 by Pegasus Press of Santa Fe, NM, and available at GBC at \$7.95) ~
2. Collected articles by Huey Mahl in *Systems & Methods* magazine and *Frontline* newsletters (in bound volumes), available from GBC. (45-volumes of *Systems & Methods* are \$50 per set. Four volume set of *Frontlines* are \$15.)
3. *Thoroughbred Racing -- Betting for Profit* by Ray Taulbot.
4. *Handicapping Notebook Collection* by Hugh Matheson
5. *Handicapper's Condition Book* (\$19.95, hardbound) by James Quinn
6. *Winning at the Races* (\$19.95, hardbound) by Dr. William Quinn
7. *Betting Thoroughbreds* (\$8.95, paperback) by Steve Davidowitz
8. *Thoroughbred Handicapping: State of the Art* (\$19.95, hardbound) by Dr. Wm. Quinn
9. *The Winning Horseplayer* (\$8.95, paperback) by Andy Beyer
10. *Class of the Field* (\$13.95, hardbound) by James Quinn

(Thanks to Dr. Sartin for compiling the list. His address is 1390 E. 6th St. Beaumont, CA)

OFF AT 2:02 Start good, Won driving. Time, :22 $\frac{1}{2}$, :45 $\frac{1}{2}$, 1:10 $\frac{1}{2}$, 1:22 $\frac{1}{2}$ Track fast.

\$2 Mutuel Prices: 7-(G)-QUICK CALL 18.20 8.20 5.80
 5-(E)-JADE HUNTER 9.20 5.40
 2-(A)-KRUL 6.40

\$2 EXACTA 7-5 PAID \$170.60. \$2 QUINELLA 5-7 PAID \$79.20.

B. c. by Quack—Sadie Mae, by Sadair. Trainer Watters Sidney Jr. Bred by Jones W I Jr & Greathouse D L Jr (Ky).

QUICK CALL, prominent from the outset, raced between horses while vying for the lead into the stretch and responded gamely to prevail over JADE HUNTER in a stiff drive. The latter raced wide into the stretch while rallying, loomed boldly with a furlong remaining but wasn't good enough. KRUL, off slowly, finished well while racing wide. MEAN AND CRAFTY made a run between horses near midstretch but hung. IRISH CHILI, wide into the stretch while rallying, weakened during the drive. TOLL KEY raced wide. LOCKED AWAY raced forwardly until near the stretch and gave way. JATO D'AGUA saved ground while showing speed, held on well until near the final furlong and tired. JOCLAR DANCER was always outrun. PREZZ MY BUZZER, well placed to the stretch while saving ground, had nothing left.

Owners— 1. Stokes Lynda; 2. Mohammed al Maklouti; 3. De Kwiatkowski H; 4. Rosenthal Mrs M; 5. Schwartz B K; 6. Foxridge Farm; 7. Phipps D; 8. Haras Rosa Do Sul; 9. Kimmel C P; 10. Kimmel C P.

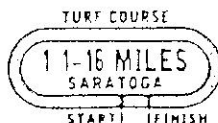

Trainers— 1. Watters Sidney Jr; 2. Lundy Richard J; 3. Stephens Woodford C; 4. Dutrow Richard E; 5. Alexander Frank A; 6. Kelly Thomas J; 7. McGaughey Claude III; 8. Imperio Dominick A; 9. Toner James J; 10. Toner James J.

Overweight: Irish Chili 2 pounds; Locked Away 1.

Scratched—Major Beard (16Jly87 *Bel7).

SARATOGA

1 1/4 MILES. (Turf). (139%) CLAIMING. Purse \$24,000. Fillies & Mares, 3-years-old and upward. Weights, 3-year-olds, 117 lbs. Older, 122 lbs. Non-winners of two races at a mile or over since July 15 allowed 3 lbs. Of such a race since then, 5 lbs. Claiming Price \$50,000; for each \$2,500 to \$45,000, 2 lbs. (Races when entered to be claimed for \$40,000 or less not considered.)

Coupled—Rue Reality and Alitina.

a-Coupled: Alitina and Rue Reality.

OFF AT 2:05. Start good, Won driving. Time, :23 1/4, :46 1/4, 1:12 1/4, 1:37 1/4, 1:43 1/4 Course firm.

\$2 Mutuel Prices:

6-(I)-LADY DICTATOR	9.20	3.60	3.00
1-(H)-ALITINA (a-entry)		2.80	3.40
1-(G)-RUE REALITY (a-entry)		2.80	3.40

\$2 EXACTA 6-1 PAID \$23.20. \$2 QUINELLA 1-6 PAID \$9.80.

B. m. by Mr Leader—Disrespectful, by Palestinian. Trainer Lee P O'Donnell. Bred by Cook R J (Ky).

LADY DICTATOR rallied from the outside approaching the stretch and wore down ALITINA under strong handling. The latter saved ground while alternating for the lead with NO PLACE BUT WIN, drew clear entering the stretch but wasn't able to withstand the winner. RUE REALITY steadied at the first turn and again while looking for room behind the leaders nearing the stretch, lacked the needed response when clear. TOP OF THE RAINBOW saved ground to no avail. JACKY MAX raced wide. AHHA made a run midway along the backstretch, remained a factor to the stretch and gave way. NO PLACE BUT WIN was used up vying for the lead. GWEN JOHN WAS EXCUSED ON ADVICE OF THE TRACK VETERINARIAN AFTER BREAKING OPEN THE GATE AND UNSEATING HER RIDER BEFORE THE START. ALL STRAIGHT, PLACE, SHOW, EXACTA AND QUINELLA WAGERS ON HER WERE REFUNDED AND A CONSOLATION DAILY DOUBLE WAS PAID.

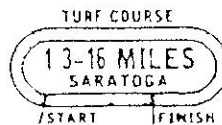

Owners— 1, Mara T D; 2, Davis A; 3, Davis A; 4, Hand E J; 5, Ken-Mort Stable; 6, Voss T H; 7, Nowierski J J.

\$2 EXACTA 6-10 PAID \$164.40.			

Dk. b. or br. c. by Majestic Light—Bearing Bride, by King Emperor. Trainer Parisella John. Bred by Augustus Peggy & Keswick Stables (Va).

SIMPLY MAJESTIC sprinted away to a long lead on the backstretch, held a clear advantage into the stretch while racing well out from the hedge and was all out to hold CATCH THE MOON safe. The latter, badly outrun for six furlongs, rallied along the inside after entering the stretch, came out between horses just inside the final furlong and finished fast. SILVER VOICE made a run along the inside leaving the far turn but wasn't good enough in a stiff drive. GOA finished with good energy between horses. HAWAIIAN PALM finished with good energy from the outside. FOXHALL KEENE wide into the stretch, failed to seriously menace while making up some ground late. PRINCE OF DESTINY was without speed. CONQUILLOT rallied racing into the far turn but lacked a late response. WORDY tired. MR. CLASSIC was finished early.

Owners—1. Sabarese & Calumet Farm; 2. Tanrackin Farm; 3. Lazy F Farm; 4. Perry W H; 5. Juddmonte Farms; 6. Coggins Iris Ann; 7. Parrish Hill Farm; 8. DeKwiatkowski H; 9. Benoit Pierre; 10. Peace J H; 11. Garren M M; 12. Cornman P.

Dk. b. or br. c, by Horatius—Manci Lynn, by Highbinder. Trainer Ciotti Joseph L. Bred by Fox Breeding & Bloodstock (NY).

FOWL MOUTH, slow to settle while saving ground, commenced his rally around the fat turn, came outside with a rush to get the lead in midstretch and drew off. SURGE ACROSS, void of early speed, commenced a strong rally only to be second. HENNY B. raced outside of rivals entering the lane and rallied for the show. FAST TRIAL volleyed for the lead with PREFERRING, put that one away, but could not keep it going. COHANSEY put in a mild rally from the outside. TRU AMERICAN raced near the leaders but tired. PREFERRING was tying for the lead early and tired. GRAPHIC'S WORLD showed brief speed. SWORD ZONE was never in it.

Owners—1, Upland Park; 2, Assunta Louis Farm; 3, Wadlow C; 4, Gray Gail; 5, Armata P J; 6, Flook R E; 7, Mangurian H T Jr; 8, Procko Kathleen; 9, Dougherty R P; 10, Goldberg M.
